

## Environment Maryland

Environment Maryland is a nonpartisan organization that combines independent research, practical ideas and tough-minded advocacy to overcome the opposition of powerful special interests and win real results for Maryland's environment. We have compiled this legislative scorecard as a tool to educate Maryland citizens about the voting records of their elected officials.

## Votes in this Scorecard

Of the hundreds of bills voted on in the Maryland House and Senate, we identified a few key votes that will have the greatest impact on Maryland's environment and public health. Short descriptions of each bill can be found on the reverse, and more details are available on our Web site.

This scorecard was compiled in conjunction with the Maryland League of Conservation Voters.

Lifetime scores have been adjusted to include historical votes not included in previous versions of this scorecard.

## Bill Summaries

### House Votes

**Clean Cars**—HB 131 adopts tighter emission standards for cars and light trucks.

**Stormwater**—HB 786 requires developers to design new developments in ways that minimize runoff pollution.

**Green Fund**—HB 1220 would have created a fee on new pavement and buildings to fund programs to reduce pollution into the Chesapeake Bay.

**Solar Power**—HB 1016 requires that 2 percent of our electricity must come from solar power, phased in from 2008 to 2022.

**Program Open Space**—HB 475 would have closed a loophole allowing some corporations to dodge the tax that funds land preservation.

**Clam Dredging**—HB 964 bans dredging for clams in the Atlantic Coastal Bays.

**LNG**—HB 1403 would have prohibited the construction of new liquefied natural gas facilities in Chesapeake Bay buffer zones.

### Senate Votes

**Clam Dredging**—SB 379 bans dredging for clams in the Atlantic Coastal Bays.

**Phosphorus**—SB 766 prohibits the use of phosphorus in dishwashing detergent.

**Solar Power**—SB 595 requires that 2 percent of our electricity must come from solar power (concurrence vote).

**Energy Efficiency**—Amendment to SB 674 that would have gutted a bill to set energy efficiency standards for common appliances.

**Clean Cars**—SB 103 adopts tighter emission standards for cars and light trucks.

**Stormwater**—SB 784 requires developers to design new developments in ways that minimize runoff pollution.

## Scorecard Key
